

COUNTY POLITICS.

It would be an excellent idea this year to allow the candidates for county positions in Ormsby county to run their own primary without the assistance of the local bosses.

The party bosses are very handy at times but occasionally the rank and file think they can do better to run the machine themselves.

This appears to be the year. It is the general impression that there will be perdition popping in this county this year.

It looks likely. There is but one way to avoid this complication and that is for the regular bosses to let the candidates and the voters settle their own affairs. This will give better satisfaction all round and result in a restoration of harmony.

There are quite a number of candidates for County offices, each of whom has quite a following of personal friends. If these candidates go into the primaries all on an equal footing, as they should be, it is certain that each defeated candidate and his friends will abide by the result. If there is outside interference it will cause trouble and dissatisfaction which will be felt at the polls at the general election.

Whatever the result is the ticket will be a good one, as there is no one seeking a nomination who is not in every way qualified for the place.

Not Dropping Much.

When silver goes up a point the Reno papers attribute the advance to what they call the "Republican silver bill," but when silver drops a point they say the silver question is not a political one. They never say, because the truth would look out of place in their columns, that the free coinage bill which the Republicans defeated would send the price of silver up to 1.29 an ounce and keep it there.—Silver State.

It don't appear to have dropped many points since the bill passed, Brother Kelly. Now that we are all reasoning together let us treat the matter as fairly as possible.

It is but fair to say that the free coinage bill was beaten in the House, not by the vote of any party alone, but by the combined cussedness of both parties.

The Republicans could have passed the bill and the Democrats could have passed the bill. Neither party had the sense to do it and both parties are to blame.

If the editor of the Silver State will glance at the roll call on the bill he will doubtless be surprised to find how many of his own party voted against it.

The Revelle claims that Lander is the "Mother of Counties" in this State. It is to be hoped that the old lady will not submit to any further increase in her already extensive family. It would take a Philadelphia lawyer to find out who is the father of all these children.

The people of Nevada county are urging Mr. Mason of the Truckee Republican to represent them in the Assembly. No man in Nevada county knows the needs of his section better than Mason.

John P. Irish brother of Gen. Irish of Reno, has been nominated for Congress by the Democrats of California. He is ranked as the best stump speaker in California.

The charges of corruption made against Judge Wallace of the California Supreme bench was believed by the Democratic Convention, for it declined to nominate him.

A general rodeo of the cattle of the Humboldt Valley begins the 1st of next month. Not until after this thorough "round-up," will the stock-men be able to form any accurate idea of last winter's losses.

A RARE OPPORTUNITY.

Good Agricultural Land for \$10 to \$20 per Acre.

The Pacific Improvement Company has recently purchased twelve thousand acres of land in the heart of Tehama County, for the purpose of promoting subdivision and settlement. This land embraces lands from first-class agricultural Valley agricultural land, and of fine average quality, and is offered at from \$10 to \$20 per acre. In subdivisions of 4, 8, 16, 32, 64 and 128 acres.

The terms upon which these lands are offered are as follows: The purchaser can begin the payment of principal by paying the first of five equal annual installments. Thus the part of the principle to be paid for three years, and then the purchaser to have five years in which to pay five equal annual installments, with interest at the rate of seven percent per annum, making payments extending over a period of eight years. The purchaser is assured that this is an opportunity to purchase land of fine agricultural quality at \$10 per acre, and good agricultural land at \$20 per acre, with other grades of land at prices to a great extent between these figures.

The agent is frequently made that good land is suitable for general farming and especially adapted for fruit growing can be had in California for less than from \$10 to \$20 per acre. An examination of the land subject of this advertisement will prove to home seekers that this is an opportunity for the purchase of good agricultural land at \$20 an acre, and for qualities grading down to fair agricultural land at \$10 an acre on terms of payment which should make the disposition of these lands to actual settlers a result easy of accomplishment.

The primary object of the purchase of this body of land was the breaking up of a large holding for the purpose of promoting its settlement in smaller quantities, and its devotion to diligent husbandry.

For further particulars call upon, or address,
